### MANAGEMENT REPORT

#### Economic & Financial Market Review and Outlook

The latest International Monetary Fund (IMF) publication, 'July 2024's World Economic Outlook (WEO) Update' estimates global growth at 3.2% for 2024. Global growth projections are relatively unchanged from the IMF's previous publication in April 2024 and is expected to remain stable.

Meanwhile, the IMF expects global inflation is anticipated to decline from 6.7% in 2023 to 5.9% in 2024, as labour markets cool and energy prices are expected to fall. US Gross Domestic Product (GDP) grew 2.5% in 2023 with IMF's projections of 2.6% in 2024 and 1.9% in 2025.

The US Federal Reserve maintained the Fed rate throughout the half year at a range of 5.25% to 5.50% with anticipated rate cuts later in 2024. With markets uncertain of the direction of interest rates, the two-year US treasury yields fluctuated from 4.25% as at December 31<sup>st</sup> 2023 to a year-to-date high of 4.90% in April to close at 4.72% as at 30th June 2024. Meanwhile, ten-year yields were also rocky, rising 48 basis points from 3.86% to 4.34% over the half year. Shorter-term US Treasury bonds continue to offer higher yields than longer-term issues.

Looking ahead to 2024, though economic uncertainty persists, the WEO anticipates global inflation to continue its downward trend to 4.4% in 2025 which is supportive of USD interest rate cuts.

The Savinvest Investment Income Fund continues to benefit from efficient cash management and the still high US Treasury yields. The Fund continues to take advantage of this to acquire credit quality assets at attractive prices and yields.

#### SIIF Fund Performance

The Fund's performance declined during FY2024 with a lower unit Net Asset Value (NAV) of US\$9.8029, a decrease of 0.3% year-over-year in per unit value.

Total Net Assets Attributable to Unitholders amounted to **US\$13.7M**, **9.1%** lower than the prior comparable period as investors deployed short-term cash holdings into higher-yielding investment opportunities amidst the high US interest rate environment.

The Fund remained focused on its investment objectives of maximizing investment returns while providing for acceptable levels of liquidity and credit risk by investing in a diversified portfolio of debt securities instruments, denominated in US dollars, originating in the United States or elsewhere. The Fund aims to invest in securities which are expected to provide high income yield and on aggregate, are not expected to cause prolonged deterioration in capital value.

#### Financial Highlights (based on Audited Financials)

Total Assets of the Fund amounted to US\$13.9M as at the June 30<sup>th</sup>, 2024, a decline of 9.1% relative to the prior comparable period. Total Liabilities amounted to US\$96.7K in FY2024, 5.8% lower than the figure reported in FY2023. The number of participating units also dipped 8.9% to 1,406,769 during the fiscal period. Distributions in FY2024 were \$281,331.

Statement of Trustee's and Management's Responsibilities Year ended June 30, 2024

The Trustee, First Citizens Trustee Services Limited, has delegated to Bourse Securities Limited, in their capacity as investment and administration manager (the "Manager") responsibilities for the following:

- Preparing and fairly presenting the accompanying financial statements of Savinvest US\$ Investment Income Fund, (the "Fund") which comprise the statement of financial position as at June 30, 2024, the statements of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows for the year then ended, and a summary of material accounting policies and other explanatory information;
- Ensuring that the Fund keeps proper accounting records;
- Selecting appropriate accounting policies and applying them in a consistent manner;
- Implementing, monitoring and evaluating the system of internal control that assures security of the Fund's assets, detection/prevention of fraud, and the achievement of the Fund's operational efficiencies;
- Ensuring that the system of internal control operated effectively during the reporting period;
- Producing reliable financial reporting that comply with laws and regulations; and
- Using reasonable and prudent judgement in the determination of estimates.

In preparing these financial statements, management utilised the IFRS Accounting Standards, as issued by the International Accounting Standards Board and adopted by the Institute of Chartered Accountants of Trinidad and Tobago. Where IFRS Accounting Standards presented alternative accounting treatments, management chose those considered most appropriate in the circumstances.

Nothing has come to the attention of management to indicate that the Fund will not remain a going concern for the next twelve months from the reporting date or up to the date the accompanying financial statements have been authorised for issue, if later.

The Trustee and the Manager affirm that they have carried out their responsibilities as outlined above.

#### Independent auditors' report

To the Trustee of Savinvest US\$ Investment Income Fund

#### Opinion

We have audited the financial statements of Savinvest US\$ Investment Income Fund, (the "Fund") which comprise the statement of financial position as at June 30, 2024, the related statements of comprehensive income, changes in net assets attributable to unitholders and cash flows for the year then ended and the accompanying notes to the financial statements, including material accounting policy information for the year then ended.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at June 30, 2024, and of its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of the Trustee and Those Charged with Governance for the Financial Statements

The Trustee is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for such internal control as the Trustee determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustee is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustee either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

#### Independent Auditor's Report (continued)

#### Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain
  audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
  not detecting a material misstatement resulting from fraud is higher than for one resulting from
  error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
  override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 1. Description of the Fund

The following brief description of Savinvest US\$ Investment Income Fund, (the "Fund") is provided for general information purposes only. Reference should be made to the Trust Deed and Prospectus of the Fund for more complete information.

#### General information

The Fund was established on April 15, 2005, as an open ended mutual fund. An open-ended mutual fund is one in which the number of units which may be issued in the Fund is unlimited. The investment objective of the Fund is to seek to maximize investment returns, while providing acceptable levels of risk and reasonable safety of capital, by investing in a diversified portfolio of debt securities instruments and contracts of issuers primarily denominated in United States dollars and originating from the United States or elsewhere.

The Fund is governed by the laws of the Republic of Trinidad and Tobago and established by a Declaration of Trust made by the Trustee, duly incorporated and validly existing and licensed under the provisions of the Financial Institutions Act 2008 of the Republic of Trinidad and Tobago. The Trustee of the Fund is First Citizens Trustee Services Limited. The Investment Manager and Administration Manager of the Fund is Bourse Securities Limited. The address of the Trustee is 5<sup>th</sup> Floor East, Albion Plaza, 22-24 Victoria Avenue, Port of Spain, Trinidad.

#### **Subscriptions**

Subscriptions to the Fund are made by investors at a price per unit, subscription price, based on the net asset value per unit. The Trustees seek to maintain as far as is reasonably possible, a subscription price of US\$10 per unit. Units may be subscribed at a minimum value of US\$2,000 and US\$200 thereafter.

#### Distributions

The net income and net realised capital gains of the Fund are calculated and accrued to the investor, daily and distributed quarterly. Investors have the option to either receive a cash distribution, or to reinvest income distributions into units at the prevailing subscription price per unit as at the date of distribution.

#### Redemptions

Units are redeemed without charge at a price per unit (bid price) based on the net asset value per unit at the date of receipt of the request for redemption. The Trustee seeks to maintain as far as is reasonably possible a bid price of US\$10 per unit.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

#### 2.1 Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The financial statements comply with IFRS as issued by the International Accounting Standards Board (IASB). These financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets at fair value.

(a) Use of estimates

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Fund's accounting policies. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

(b) New standards, amendments and interpretations which are effective and have been adopted by the Fund in the current year.

The Fund adopted the following amendments with a transition date of July 1, 2023. There were no significant changes made to these financial statements resulting from the adoption of these amendments.

- IASB issued amendments to IAS 1, which change the disclosure requirements with respect to accounting policies from 'significant accounting policies' to 'material accounting policy information'. The amendments provide guidance on when accounting policy information is likely to be considered material. The amendments to IAS 1 are effective for annual reporting periods beginning on or after January 1, 2023.
- In February 2021, the IASB issued amendments to IAS 8, which added the definition of Accounting Estimates in IAS 8. The amendments also clarified that the effects of a change in an input or measurement technique are changes in accounting estimates, unless resulting from correction of prior period errors.
- In May 2021, the IASB issued amendments to IAS 12, which clarify whether the initial recognition exemption applies to certain transactions that result in both an asset and a liability being recognised simultaneously (e.g. a lease in the scope of IFRS 16). The amendments introduce an additional criterion for the initial recognition exemption under IAS 12.15, whereby the exemption does not apply to the initial recognition of an asset or liability which at the time of the transaction, gives rise to equal taxable and deductible temporary differences.
- (c) Standards amendments and interpretations issued which are effective on or after July 1, 2023, and have been early adopted by the Fund.

The Fund has not early adopted any new standards, interpretations or amendments.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

2. Material accounting policies (continued)

#### 2.1 Basis of preparation (continued)

(d) Standards, amendments and interpretations issued which are effective and not relevant to the Fund.

A number of new standards, amendments to standards and interpretations which have been issued by the IASB are effective for annual periods beginning after July 1, 2023, but are not considered relevant to the Fund and have not been disclosed.

(e) New standards, amendments and interpretations issued but not effective and not early adopted.

The following new standards, interpretations and amendments, which have not been applied in these financial statements, will or may have an effect on the Fund's future financial statements in the period of initial application. In all cases the entity intends to apply these standards from the application date as indicated in the note below.

- The IFRS Interpretations Committee issued an agenda decision in June 2020 Sale and leaseback with Variable Payments. The Amendments provide a requirement for the seller-lessee to determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee. The amendments are effective for annual reporting periods beginning on or after January 1, 2024.
- The IASB issued amendments to IAS 1 Classification of Liabilities as Current or Noncurrent in January 2020, which have been further amended partially by amendments Non-current Liabilities with Covenants issued in October 2022. The amendments require that an entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement for at least twelve months after the reporting period. As a result of the COVID-19 pandemic, the Board deferred the effective date of the amendments by one year to annual reporting periods beginning on or after January 1, 2024.
- Subsequent to the release of amendments to IAS 1 Classification of Liabilities as Current or Non-Current, the IASB amended IAS 1 further in October 2022. If an entity's right to defer is subject to the entity complying with specified conditions, such conditions affect whether that right exists at the end of the reporting period, if the entity is required to comply with the condition on or before the end of the reporting period and not if the entity is required to comply with the condition on the meaning of 'settlement' for the purpose of classifying a liability as current or non-current. The amendments are effective for annual reporting periods beginning on or after January 1, 2024.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.1 Basis of preparation (continued)

- (e) New standards, amendments and interpretations issued but not effective and not early adopted. (continued)
  - On May 25, 2023, the IASB issued Supplier Finance Arrangements, which amended IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures (the Amendments). The Amendments require entities to provide certain specific disclosures (qualitative and quantitative) related to supplier finance arrangements. The Amendments also provide guidance on characteristics of supplier finance arrangements. The amendments are effective for annual reporting periods beginning on or after January 1, 2024.
  - On August 15, 2023, the IASB issued Lack of Exchangeability which amended IAS 21 The Effects of Changes in Foreign Exchange Rates (the Amendments). The Amendments introduce requirements to assess when a currency is exchangeable into another currency and when it is not. The Amendments require an entity to estimate the spot exchange rate when it concludes that a currency is not exchangeable into another currency. The amendments are effective for annual reporting periods beginning on or after January 1, 2025.

The Fund is currently assessing the impact of these new accounting standards and amendments. The Fund does not believe that the amendments to IAS 1 will have a significant impact on the classification of its liabilities.

Other new standards, amendments to standards and interpretations which have been issued by the IASB are effective for annual periods beginning after July 1, 2023, but are not considered relevant to the Fund and have not been disclosed.

#### 2.2 Foreign currency

(a) Functional and presentational currency

The accounting records, as well as the financial statements of the Fund, are maintained in the United States ("US") dollars. US dollar is the functional and reporting currency of the Fund and subscriptions and redemptions are performed in US dollars. The Trustee considers the US dollar to be the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the statement of financial position date.

Foreign exchange gains and losses arising from the translation of financial assets and liabilities are included in the statement of comprehensive income.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.3 Financial assets and financial liabilities

The Fund's financial assets and liabilities are recognised in the statement of financial position when it becomes a party to the contractual obligation of the instrument.

(i) Investment securities

The Fund can classify its financial assets based on the following business models:

- Amortised cost
- Fair value through other comprehensive income
- Fair value through profit or loss

Based on these factors the Fund classified its financial assets into one of the following three measurement categories:

Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest (SPPI), and that are not designated at fair value through profit or loss (FVPL) are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured as described in note 3 (ii). Interest income from these financial assets is included in "Interest income" on the statement of comprehensive income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amounts are taken through OCI, except for the recognition of impairment gains and losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in "Interest income" on the statement of comprehensive income. The interest income from these financial assets is included in "interest income" using the effective interest rate method.

- Fair value through profit or loss (FVPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented in the statement of comprehensive income within realised gain or loss on sale of investment securities in which it is paid, unless it arises from debt instruments that were designated at fair value or which are not held for trading, in which case they are presented in "Interest income" using the effective interest rate method.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.3 Financial assets and financial liabilities (continued)

(i) Investment securities (continued)

#### Repurchase agreement

Repurchase agreements are recognised initially at fair value, net of transaction costs incurred. Notes Receivable agreements are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the term of the Note Receivable agreement using the effective interest method. Repurchase agreements are 100% backed by investments which are held by a subsidiary of the Fund's Investment Manager. No expected credit loss (ECL) provision was recognised since even if there was a default by the issuer of the notes, the issuer is obligated to the value of the investments held as collateral.

#### Fund's business model

The business model reflects how the Fund manages the assets in order to generate cash flows. An assessment is made at a portfolio level and includes an analysis of factors such as:

- The stated objective and policies of the portfolio and the operation of those in practice. More specifically whether the Fund's objective is solely to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows from the sale of assets.
- Past experience on how the cash flows for these assets were collected.
- Determination of performance targets for the portfolio, how evaluated and reported to key management personnel.
- Management identification of and response to various risks, which includes but not limited to liquidity risk, market risk, credit risk and interest rate risk.
- Management considers, in classifying its assets, the level of historical sales and forecasted liquidity requirements.

Arising out of the assessment, the portfolio was deemed to have the business models identified as follows:

FVOCI (Hold to Collect & Sell)	FVPL (Hold for Trading)
Debt instruments with a modified duration greater than three (3) years at recognition	Debt instruments with tenors less than or equal to one (1) year which can be easily liquidated within three (3) business days
	Cash and cash equivalents

The Fund reclassifies debt instruments when, and only when, it's business model for managing those assets changes. The classification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent, and none occurred during the period.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.3 Financial assets and financial liabilities (continued)

(i) Investment securities (continued)

#### Solely payments of principal and interest (SPPI)

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Fund assesses whether flows represent solely payment of principal and interest (SPPI test). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement i.e., interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that is inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Recognition/de-recognition of financial assets

All purchases and sales of financial assets are recognised on the trade date - the date on which the Fund commits to purchase or sell the financial asset. Financial assets are initially recognised at fair value plus transaction cost and are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all risks and rewards of ownership.

#### Impairment

The Fund assesses on a forward-looking basis as well as performs historical analysis and identifies the key economic variables impacting credit risk and expected credit losses for each investment within portfolio. The expected credit losses (ECL) are associated with debt instruments carried at amortised cost and FVOCI.

Assets at amortised cost has its accompanying 'impairment' account presented in the statement of financial position whereas the purchased securities classified as FVOCI does not have an 'impairment' account on the asset side but instead uses impairment provision account in retained earnings and revaluation reserve. The Fund recognises a loss allowance at the date of initial application of IFRS 9 for such losses and subsequently at each reporting date.

The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.
- Note 3 (ii) provides more detail of how the expected credit loss allowance is measured.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.3 Financial assets and financial liabilities (continued)

(ii) Financial liabilities

Financial liabilities are classified and subsequently measured at amortised cost. Financial liabilities include due to related parties and payables. Financial liabilities are derecognised when they have been redeemed or otherwise extinguished (that is, when the obligation specified in the contract is discharged, cancelled or expired).

#### (iii) Determination of fair value

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and these prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indicators that a market is inactive are when there is a wide bid-offer spread or a significant increase in the bid-offer spread or there are few recent transactions.

For financial instruments traded in an active market, the determination of fair values of financial assets and liabilities is based on quoted market prices or dealer price quotations.

For all other financial instruments, fair value is determined using valuation techniques. In these techniques fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques using input existing at year-end.

The Fund uses an internally developed model which is generally consistent with other valuation models used in the industry. Valuation models are used to value unlisted debt securities and other debt securities for which the market has become or is illiquid. Some of the inputs of this model may not be market observable and are therefore based on assumptions.

#### 2.4 Cash and cash equivalents

Cash and cash equivalents comprise cash and demand deposits with banks together with shortterm highly liquid investments that are readily convertible to known amounts of cash and subject to insignificant risk of change in value. Such investments are normally those with maturities up to three months from the date of acquisition.

Cash and cash equivalents that are managed as part of investments are reported within investments, as these funds are not used for operating needs.

#### 2.5 Net assets attributable to unit holders

Units are redeemable at the unit holder's option subject to certain restrictions as outlined in Note 1 and are classified as financial liabilities. The distribution on these units is recognised in the statement of comprehensive income. The units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value as determined under the Trust Deed. Units are carried as capital account at the redemption amount that is payable at the statement of financial position date, if the unit holder exercised its right to put the unit back to the Fund.

#### 2.6 Due from broker

Due from broker represents amounts receivable for unsettled trades as at the year end. This is measured at cost.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.7 Revenue recognition

Revenue comprises interest income, dividend income and net fair value gains on investment securities.

The Fund recognises revenue when it meets the following criteria:

- it is probable that any future economic benefit associated with the item of revenue will flow to the entity, and
- the amount of revenue can be measured with reliability

Interest income is accounted for on the effective interest method.

Dividend income is recognised when the right to receive the dividend is established that being the ex-div date.

#### 2.8 Expenses

Expenses are accounted for on the accrual basis.

#### 2.9 Subscriptions and redemptions

Subscriptions and redemptions are accounted for as at the effective date of the transaction.

#### 2.10 Provisions

Provisions are recognised when the Fund has a present obligation (legal or constructive) as a result of a past event, it is probable that the Fund will be required to settle the obligation, and a reliable estimate can be made of the amount the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

#### 2.11 Comparative figures

Certain changes in the presentation have been made during the year and comparative figures have been restated accordingly. These changes have no impact on the total comprehensive income for the previous year.

#### 2.12 Taxation

(a) Tax levied on unitholders

Distribution income to Trinidad and Tobago residents are not subject to taxation. Tax on distribution income is withheld on distributions paid to non-resident unitholders at the rate applicable to the country in which the unitholders reside.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 2. Material accounting policies (continued)

#### 2.12 Taxation (continued)

#### (b) Tax levied on the Fund

Under the provisions of the Corporation Tax Act of Trinidad and Tobago, the Fund is exempt from taxation on its profits; therefore, no provisions have been made in these financial statements for taxes.

The Fund is subject to foreign withholding tax on certain interest, dividends and capital gains receivable.

#### 3. Critical accounting estimates and judgements in applying accounting principles

The Fund makes estimates and assumptions concerning the future. The accounting estimates will by definition rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the amounts of the assets and liabilities are outlined below:

(i) Fair value of financial assets

All financial assets are fair valued according to quoted prices. As a result, the only perceptible risk would be impairment of the financial assets.

(ii) Impairment of financial assets

IFRS 9 requires the Fund to record Expected Credit Losses (ECL) on all of its debt securities, loans and trade receivables, either on a 12-month or lifetime basis. Assessment is required on a historical basis, current basis as well as a forward-looking analysis including the identification of key economic variables impacting credit risk and expected credit losses for each investment within the portfolio. The expected credit loss is recognised in the statement of comprehensive income.

The Fund recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at FVOCI. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The expected credit losses on these financial assets are estimated using a provision matrix based on the Fund's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Fund recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Fund measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 3. Critical accounting estimates and judgements in applying accounting principles (continued)

(ii) Impairment of financial assets (continued)

#### Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Fund compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Fund considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Fund's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Fund's core operations.

The Fund regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### Definition of default

The Fund considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Fund, in full (without taking into account any collateral held by the Fund).

Irrespective of the above analysis, the Fund considers that default has occurred when a financial asset is more than 90 days past due unless the Fund has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above.

Objective evidence that an investment is impaired includes observable data that comes to the attention of the Fund about the following loss events:

- (i) significant financial difficulty of the issuer or debtor;
- (ii) a breach of contract, such as default or delinquency in payments;
- (iii) it becoming probable that the issuer or debtor will enter bankruptcy or other financial reorganisation;
- (iv) the disappearance of an active market for that financial asset because of financial difficulties;

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 3. Critical accounting estimates and judgements in applying accounting principles (continued)

#### (ii) Impairment of financial assets (continued)

#### Definition of default (continued)

- (v) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of individual assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:
  - adverse changes in the payment status of issuers or debtors in the group; or •
  - national or local economic conditions that correlate with defaults on assets in • the group.

The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating • a range of possible outcomes;
- The time value of money; and •
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

#### 4. Investment securities

Balance at the end of year	\$442,557	\$622,040

#### Option assets

During the year, the Fund entered into additional agreements with Bourse Securities Limited being 'The Seller' of the "Put Options". The Put Option gives the right but not the obligation of the purchaser to sell the underlying assets to the seller for the purchase price as at the date of exercising the option. Accordingly, the Fund as at June 30, 2024, valued the underlying assets using the prevailing market prices and has recorded any increase/diminution in value of the financial assets. Option assets are measured at FVTPL.

#### 8. Related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

#### Trustee fees

First Citizens Trustee Services Limited is entitled to a quarterly fee which is calculated and accrued daily and payable in arrears in an amount which will not exceed an annual rate of 0.25% of the Net Asset Value during the relevant quarter subject to a minimum annual fee of US\$2,000 for performing duties and functions of Trustee of the Fund.

The trustee fees for the year ended June 30, 2024, totalled \$37,753 (2023: \$42,949) of which \$9,189 (2023: \$9,785) was payable at the year end and included in accounts payable and accrued expenses.

## Notes to the Financial Statements For the year ended June 30, 2024

(Expressed in United States Dollars)

#### 8. Related party transactions (continued)

#### Fund administration fees

The Trustee has appointed Bourse Securities Limited as the Fund Administration Manager to provide Fund administration services to the Fund. Bourse Securities Limited receives in return a fee of up to a maximum of 2% p.a. based on the net asset value of the Fund which is calculated and accrued daily and payable in arrears during the relevant quarter.

#### Investment management fees

The Trustee has appointed Bourse Securities Limited to be responsible for the investment decisions made on behalf of the Fund. Bourse Securities Limited receives in return a fee of up to a maximum of 2.5% p.a. based on the net asset value of the Fund which is calculated and accrued daily and payable in arrears during the relevant quarter.

#### Distribution fees

The Trustee has appointed Bourse Securities Limited as the distributor and placement agent for the Fund. Bourse Securities Limited receives in return a fee of up to a maximum of 1% p.a. based on the net asset value of the Fund which is calculated and accrued daily and payable in arrears during the relevant quarter.

The balance outstanding at the year-end along with other related party transactions are detailed below.

#### 9. Distributions

	2024	2023
Average rate of return without the reinvestment option	1.85%	1.85%

#### 10. Financial Risk management

The Fund's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risk. Taking risk is core to the financial business and operational risks are an inevitable consequence of being in business. The investment manager's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects in the Fund's financial performance by focusing on the unpredictability of financial markets.

The investment manager's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls and to monitor the risks and adherence to limits by means of reliable and up to date information systems.

The most important types of risks to the Fund are liquidity risk, market risk, and credit risk. Market risks include currency risk, interest rate risk and other price risk.

While the Trustee is ultimately responsible for identifying and controlling risks, there are separate independent bodies responsible for managing and monitoring risks as follows:

#### (a) Board of Directors - Investment Manager

The Board of Directors of the Investment Manager has overall responsibility and oversight for corporate governance and specifically, approval of the investment policy and limits of authority. The Board of Directors has delegated authority to the Investment Committee and the Sub-Investment Committee as appropriate.

#### (b) Investment Committee - Investment Manager

The Investment Committee is responsible for investment policy formulation, risk management, performance review, investment strategy development and the delegation of authority to the Sub-Investment Committee. The Committee oversees the development, interpretation and implementation of policies for identifying, evaluating, monitoring and measuring the significant risks to which the Fund is exposed.

#### (c) Sub-Investment Committee - Investment Manager

The Sub-Investment Committee monitors adherence to the investment strategy, develops the Fund's asset allocation, monitors investment performance and makes recommendations to the Investment Committee. Decisions regarding investment selection and portfolio management are made within policy limits set by the Investment Committee.

#### Notes to the Financial Statements For the year ended June 30, 2024

#### Market price risk

The Fund is exposed to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rate products, which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates and credit spreads. All investment securities present a risk of loss of capital. The Sub-Investment Committee moderates this risk through a careful selection of securities and other financial instruments within specified limits. The Fund's overall market positions are reviewed on a quarterly basis by the Investment Manager, Investment Committee and Board of Directors of the Investment Manager.

As at June 30, 2024, if bond prices increased/decreased by 5% with all other variables held constant, net assets attributable to unit holders would have increased/decreased by \$634,800 (2023: increase/decrease \$699,774)

#### Interest rate risk

Cash flow interest rate risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Fund takes on exposure to the effects of fluctuations in prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. The level of mismatch of interest rate repricing that may be undertaken is monitored on a monthly basis by the Investment Manager.

Stress testing is used as a market risk measurement technique which provides an indication of the potential size of losses that could arise in extreme conditions. The stress test conducted for the Fund includes risk factor testing, where stress movements are applied to each risk category. An analysis was conducted to demonstrate the sensitivity to reasonable possible movements in interest rates in respect of the Fund's fixed income portfolio.

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 10. Financial risk management (continued)

#### Interest rate risk (continued)

As at June 30, 2024, had the interest rates increased or decreased by 100 basis points with all other variables held constant, the increase or decrease in net assets would amount to approximately \$2,748 (2023: \$425), arising substantially from the increase/decrease in market values of debt securities.

#### Credit risk

The Fund takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit exposures arise principally in investment activities that bring debt securities and other bills into the Fund's asset portfolio. Credit risk is mitigated to some extent by limiting the Fund's total exposure to a single credit. The Fund also reduces this risk by prudent credit analysis of issuers to restrict questionable credits in the Fund. The Fund also manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Investment Manager has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a risk rating and are validated, where appropriate, by comparisons with externally available data. The rating scale, which is shown below, reflects the range of default probabilities defined for each rating class. Risk ratings are subject to regular revision. The credit quality review process allows the Investment Manager to assess the potential loss as a result of the risks to which it is exposed and take corrective action.

#### Internal ratings scale and mapping of external ratings

Internal rating	Description of the grade	External rating: Standard & Poor's equivalent
High grade		
1 2	Excellent Very good	AAA, AA+, AA, AA- A+, A, A-, BBB+, BBB, BBB-
<b>Standard grade</b> 3 4	Good Satisfactory	BB+, BB, BB- B+, B, B-
Sub-standard grade 5 6 7	Unacceptable Bad and doubtful Virtual certain loss	CCC+, CCC, CCC- CC+, CC, CC- C+, C, C-

The ratings of the major rating agency shown in the table above are mapped to our rating classes based on the long-term average default rates of each external grade. The Fund uses the external ratings where available to benchmark our internal credit risk assessment. Observed defaults per rating category vary year on year, especially over an economic cycle. Where a credit is not assigned a risk rating under the internal risk rating system and cannot be benchmarked against an international rating, these have been classified as unrated. These would include equities, local corporate bonds and funds held in a managed pool by a foreign investment broker.

## Notes to the Financial Statements

For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 10. Financial risk management (continued)

#### Credit risk (continued)

#### Impairment and provisioning policies

Impairment provisions are recognised for financial reporting purposes in accordance with IFRS 9 on an expected credit loss (ECL) basis (see Note 3 (ii)). The expected credit losses (ECL) are associated with assets carried at amortised cost and FVOCI and with the exposure arising from debt instruments, loan commitments and trade receivables.

The Fund recognises a loss allowance at the date of initial application of IFRS 9 for such losses and subsequently at each reporting date.

#### Maximum exposure to credit risk

The table below represents a worst-case scenario of credit risk exposure to the Fund at June 30, 2024, and 2023.

	2024	2023
Investment securities:		
- Bonds	12,696,000	13,995,476
Interest receivable	146,488	132,485

Accounts receivable	-	12,656	-	12,656
	\$8,138,043	\$1,726,862	\$4,797,023	\$14,661,928

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 10. Financial risk management (continued)

#### Other price risk

The Fund is exposed to price risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Fund is not exposed to commodity price risk. Price risks arise from open positions in interest rate products, which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates and credit spreads. The Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits. The Fund's overall market positions are reviewed on a monthly basis by the Investment Manager.

#### **Currency risk**

Currency risk is the risk that the value of a financial instrument will fluctuate due to a change in foreign exchange rates. All of the Fund's financial assets and liabilities are denominated in US\$ hence the Fund is not exposed to any currency risk.

#### 11. Fair value of financial assets and liabilities

Due to the short-term nature of the Repurchase agreement, the carrying value of these financial instruments approximate fair value.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from quoted prices).
- Level 3 fair value measurements are those from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table analyses within the fair value hierarchy the Fund's assets as at June 30, 2024, and June 30, 2023:

	Level 1	Level 2	Level 3	Total
As at June 30, 2024				
Investment securities Fair value through other comprehensive income - Corporate and government				
bonds	8,396,000	4,300,000	-	12,696,000
	\$8,396,000	\$4,300,000	<b>Ş-</b>	\$12,696,000
Investment securities Fair value through profit or loss				
- Option assets	-	442,557	-	442,557
	\$-	\$442,557	\$-	\$442,557

#### Notes to the Financial Statements For the year ended June 30, 2024 (Expressed in United States Dollars)

#### 11. Fair value of financial assets and liabilities (continued)

As at June 30, 2023	Level 1	Level 2	Level 3	Total
Investment securities				
Fair value through other comprehensive income - Corporate and government bonds	7,145,476	6,850,000	-	13,995,476
	\$7,145,476	\$6,850,000	\$-	\$13,995,476
Investment securities Fair value through profit or loss - Option assets		622,040	-	622,040
	<b>\$</b> -	\$622,040	Ş-	\$622,040

#### 12. Capital management

When managing capital, which is represented by unit holders' balances, the objectives of the Fund Administrator are:

- To comply with the requirements set out in the Fund's prospectus and Trust Deed;
- To safeguard the Fund's ability to continue as a going concern so that it can continue to provide returns for unit holders'; and
- To maintain a strong capital base to support the development of its business.

The Fund endeavours to invest the proceeds from the issue of units in appropriate investments while maintaining sufficient liquidity to meet redemptions where necessary, such liquidity being augmented by disposal of investment securities where necessary.

The use of proceeds from the issue of units is monitored on a daily basis by the Fund Distributor, based on guidelines set out in the Prospectus and the Trust Deed. The Fund complied with the requirements set out in the Prospectus and Trust Deed during the reported financial periods and no changes were made to the Fund's objectives, policies and processes from the previous year.

#### 13. Contingencies and commitments

The Fund has no undisclosed contingent liabilities or commitments which have not been provided for in these financial statements.

#### 14. Subsequent events

The Fund evaluated all events that occurred from July 1, 2024, through September 26, 2024, the date the financial statements were available to be issued. During the period, the Fund did not have any subsequent events requiring recognition or disclosure in the financial statements, other than those disclosed below.

(a) Subsequent to year-end, up to September 26, 2024, the Fund received subscriptions amounting to \$434,075, paid redemptions amounting to \$351,949 and distributed income of \$58.
